^{I'm} Mohsen Emami

^a FrontEnd Developer

you can connect with me moh.motamede@gmail.com,

As a Front-End Developer with **10 years** of experience, I have successfully delivered web applications using various technologies and frameworks, such as ***React, Angular and CSS frameworks like Tailwind and Bootstrap.*** I have also integrated *legacy systems and ERPs with modern web solutions*. I am well-versed in the ***Scrum Agile methodology*** and **enjoy working in cross-functional teams**. I have a passion for creating user-friendly and responsive web interfaces that meet the needs of the clients and the users.

Experience

Front-End developer, Playtime Solutions. remote

about 4 years

During my four years as a Senior Front-End Developer at IDP Australia Co., I played a key role in building a large scale Angular project. Recently, I co-founded and implemented a successful Scrum Agile framework to improve team collaboration. As a Front-End Lead, I managed several successful releases and mentored junior developers, contributing to team growth. My time at IDP has been marked by successful project management, innovation, and a focus on team development.

- Analyzing user needs to determine technical requirements.

- Performing web site tests according to planned schedules

- Recommending and implementing performance improvements.

- Creating web models or prototypes that include physical, interface, logical, or data models.

Front-End developer, RDsys CO. Isfahan

About 3 years

Raya Diar Company is a bi-national, Iranian-Canadian, company and a subsidiary of EPFC. I have worked for this company for three years. I have worked on an ERP project for two years and then done an ERP rewrite project for a year. During those three years, we, the employees of the company, have worked with a variety of technologies included react, sass, node, backbone, etc.

Front-End developer, ICAN CO. Isfahan

About 3 years

- Modifying existing software to correct errors, to adapt it to new hardware, or to upgrade interfaces and improve performance.
